

Logre: Is set for Key Presentation at the Finance Professionals Biggest Annual Indaba.

~ Finance Indaba Africa ~ 2016 ~

27 September 2016

- By Genesis Articles Global

As proud providers of cutting-edge Business Management (BMS) and Business Intelligence (BI) Solutions in Southern Africa, we invite your CFO's and representatives to join us at the one and only [Finance Indaba Africa](#) 2016 (13th and 14th October 2016; 9am to 10pm).

Not only is this the biggest annual event of its kind for finance professionals, but the Finance Indaba also brings together a diversified and select group of industry leaders, related suppliers, technology forerunners, banks, business and finance executives, strategic synergy partners and respective authorities. Visitors will join over 5000 anticipated attendees, from policymakers to end-users, all seeking to engage closely with various stakeholders.

Connect with Logre at the Finance Indaba Africa 2016

Logre will be exhibiting at stand A43 for the duration of the event, with a special address by Business Developer Manager, Rebecca Mahlo, at 2:15pm to 3:00pm on the 14th October 2016. The presentation theme involves *Transforming Financial Attitude on a World Class Stage*. Rebecca commented that, "In this session Logre will focus on how organisations can gain operational

efficiencies, reduce costs and increase business growth. This will be demonstrated using real life customer case studies.”

As a premier certified Sage partner for 21 consecutive years, Lorge’s client-centric approach is also evident in its participation at the Finance Indaba. “The Finance Indaba provides Lorge with a unique opportunity to foster new and old relationships with finance professionals; to promote its brand by showcasing its value-added offerings. This in turn will help finance professionals to run their operations more efficiently by cutting down costs and realising desired results,” said Rebecca in commenting on why Lorge is participating at the Finance Indaba 2016.

Why is Lorge strategically placed to support CFO’s and Finance Professionals?

As a robust organisation with progressive financial and operational goals, you may be asking: *What financial management and associated benefits your finance division and enterprise as a whole can expect from engaging the services of Lorge?* Our focus as an enterprise is on adding optimum value to your organisation so that it subsequently experiences superior ROI, based on appropriate BMS and BI solutions. This includes effective needs analyses, systems implementation together with comprehensive and dedicated sales and after-sales support.

Here are six of the benefits or rather challenges that we are able to help finance professionals acutely address in 2016 and beyond:

1. Streamlining processes to increase productivity and reduce operating costs
2. Showing satisfactory revenue and profit growth
3. Regulatory Compliance
4. Financial Consolidation and Reporting
5. Adapting to the changes in the technology space with respect to Internet of Things(IoT) and Industry 4.0
6. Enhance efficiencies throughout the business by reducing the reliance on manual input and automating processes through adaptive workflow

Partnering with a Market Leader

In today’s volatile and increasingly competitive marketplace, it has become necessary to benchmark against the highest international standards and best practices. This is not only a regulatory issue but one of maximising output too. This is why it is critical to align your operation with the right BMS and BI partner in this day and age.

At Lorge we believe that progressive organisations with vision need alliance with equally progressive service providers. Below is a short snapshot of how Lorge has grown from humble beginnings to become a national enterprise also servicing clients internationally.

1. Lorge has grown to become the preferred supplier and implementer of Sage X3, Sage 300, Sage CRM, Sage X3 People and Qlikview business and technology solutions.
2. Has successfully implemented over 10 000 users across numerous industries

3. Is a trusted Service Provider for more than 250 companies
4. More than 30% of Lorge's clients are listed on the JSE Securities Exchange
5. Operates extensively within and beyond South African borders
6. Integration to bespoke systems and customisation as per client's needs.

Award-winning solutions

Further to the above, *progressive* couldn't be better epitomised than in the essence of award-winning service. Over the past 30 years of operation Lorge has accumulated a number of accolades and industry awards. In doing so the organisation has entrenched an irrevocable reputation for excellence and is recognised as a pioneer in its field of expertise. Here are some of the reasons why Lorge has become a market leader in the true sense and continues to win awards annually.

1. Over the last 30 years, the consistency of our expertise in business systems has earned us an award winning reputation
2. Our unstinting dedication to excellence
3. Consistent Customer Centricity
4. Highly passionate, skilled and product-certified consultants and developers
5. Our Dedicated Client Care Centre
6. Our Dedicated Sage Accredited In-house Training Centre
